

Operator Interface HG Series

HG5G-V

Powerful visual presentation Find all the information you need on a single screen

Super bright, high resolution display with outstanding performance

The bright display is visible from a distance and in well-lit surroundings. (650cd/m²)

The large screen and high-quality resolution makes it easy to view precise data. Display resolution: $1024 (W) \times 728 (H)$ View angle: Right and left 80° up 60° , down 80°

Lightweight construction

Plastic housing enables lightweight structure. (3.2kg approx.)

Slim bezel

Energy-saving

Slim bezel enables downsizing of the operator interface with a large screen.

Energy-saving 27W power consumption.

From large to small size For diverse applications

*See page 12 for specifications.

High performance IoT functionality

Web server function

Confirm status of the system from an remote area

- •The screen can be remotely monitored and operated from a PC, tablet, or smartphone.
- •No special software required. Accessible using an internet browser.

Use a WEB PAGE EDITOR to create a your original monitor page without knowledge of Java or HTML.

for the manufacturing floor

The data in the operator interface can be sent by CSV format or by screen shot. Email settings can be configured to meet the requirements of each customer.

FTP server / client function

Easy maintenance

FTP server function enables transfer of project data and helps utilize data log easily. Easy maintenace from remote locations.

Connect! IDEC Smart Factory Solution

MICRO**Smart**[®] Programmable Controller

FC6A Achieves high performance and usability in one

Built-in amplifier Miniature photoelectric switches

SA1E

Excellent environmental resistance Withstands harsh environments

Wide Temperature range: -20 to +60°C

Suitable for use in a wide temperature range from cold to hot. (-20 to $+55^{\circ}$ C for HG1G)

Waterproof / Oil resistant (IP66F / IP67F / UL Type 4X)

(IPOOF / IPO/F / UL Type 4X)

Touchscreens can be used on machines washed down by water such as food machines. Also suitable for use on food machines subject to oil spills. (HG2G-5T: IP66F protection only) *Operation not guaranteed when used with certain types of oils.

See instructions on the back page.

Long-life, high-performance LED backlight reduces maintenance time

48-level dimming control (*1) reduces cost and allows for a wide range of uses. (HG5G-V: Brightness 650cd/m², backlight life: 100,000 hours) *1) 32-level for HG2G-T and HG1G.

Protection against UV rays

Strong plastic material used for protecting the screen. By using the optional protective sheet, UV protection is enhanced, and prevents degrading of the LCD (*2). *2) UV protective material is used but operation is not guaranteed outdoors or under direct sunlight.

Marine standards

LR, DNV, GL, ABS, NK marine standards approved (pending). (*3) *3) Except HG2G-5T, HG1G

Rugged construction

Hard coating prevents damage to the screen.

A wide variety of functionality for users

3-seconds startup

Stress-free quick startup

Selectable memory

Data can be saved or transferred by using an SD card (32GB max.) and USB memory. By saving user data on an SD card or USB memory, back up of data is possible and the user memory can be reduced.

USB autorun

Autorun menu on the USB memory enables easy transfer of data and settings.

Multiprotocol

Multiple machines using PLCs made by different manufacturers can be controlled, configured, and monitored by one operator interface. Supports BACnet (*1) and Modbus TCP/RTU protocol. *1) Except HG2G-5T, HG1T

Analog signals and contact signals can be sent and received by serial communication

Displays images on the screen from a camera.

Play video

MPEG4 video files can be played back on the screen. Work procedures can be shown on the screen, and when trouble occurs, it can be used as a video manual for trouble shooting on-site.

Records and plays back images on the screen from a

camera and saves the data to the SD card.

Harsh

Usability

IoT

Record video

When an alarm is set off, video images before and after the start of the alarm can be recorded on an SD card. This enables on-site analysis is of the trouble. Smooth and refined images can be recorded.

Flexible and user-friendly programming

OI Touchscreen Programming Software

Flexible and easy to use Easy programming enables efficiency

Create projects efficiently with a script debugger

The script debugger allows you to check the operation of the script step by step during simulation mode.

Simple and useful manager fuctions

Several settings such as a text manager, picture manager, and script managers can be controlled and displayed by a single manager.

User communication function enables use of complex protocols

User communication function allows the use of protocols not supported by network drivers.

Controponal axes cont Rebot name ABC The error check function items in a list. You can ju

Error log helps specify problems easily

The error check function displays incorrect setup or missed items in a list. You can jump to the error from this list so problems that occur in a large project can be solved quickly.

Check operation of the PC using the simulator

No need to download the project data to the operator interface each time. Operation can be checked using a simulator.

Check information of the object at a glance

Information such as device address and operating condition of parts laid out on the screen can be checked easily.

Extensive image library

Drag & drop functionality allows intuitive operation. Images can be imported from an image library of 10,000 parts.

Create documents easily by print function

Items selected from the project data can be printed and used as users manual or spec sheet. The data can also be converted to docx format and edited.

HG5G-V Operator Interface

Lightweight with slim bezel.

Large size ideal for handling huge amount of information for the IoT era.

Note 1: Dimensions in blue show the mounting dimensions of the cable.

Note 2: Dimensions in the figure may vary depending on the type of cable connected.

Note 3: Install the HG5G-V into a panel cut-out by tightening the six mounting clips (supplied with the HG5G-V) to a torque of 0.5 to 0.6 N·m. Do not tighten with excessive force, otherwise the HG5G-V and screen may become distorted. Also waterproof characteristics may be lost.

Dimensions

*1) Depth from the expansion module mounting surface.

Panel Cut-out

All dimensions in mm.

Panel Thickness: 2.0 to 5.0 mm

Note 1: Dimensions in blue show the mounting dimensions of the cable.

Note 2: Dimensions in the figure may vary depending on the type of cable connected.

Note 3: Install the HG4G-V into a panel cut-out by tightening the four mounting clips (supplied with the HG4G-V) to a torque of 0.5 to 0.6 N·m. Do not tighten with excessive force, otherwise the HG4G-V and screen may become distorted. Also waterproof characteristics may be lost.

Rated Power Voltage	24V DC		
Power Voltage Range	20.4 to 28.8V DC		
	25W maximum		
Power Consumption	15W maximum when not using USB2 or EXT		
	7W maximum when Backlight OFF		
Allowable Momentary Power Interruption	10 ms maximum		
Inrush Current	30A maximum		
Dielectric Strength	1,000V AC, 10 mA, 1 minute between power and FG terminals		
Operating Temperature	-20 to +60°C (no freezing)		
Operating Humidity	10 to 90% RH (no condensation)		
Storage Temperature	-20 to +70°C (no freezing)		
Storage Humidity	10 to 90% RH (no condensation)		
Pollution Degree	2		
Vibration Resistance	5 to 8.4 Hz amplitude 3.5 mm, 8.4 to 150 Hz, acceleration 9.8 m/s ² 10 cycles (100 minutes) on each of three mutually perpendicular axes		
Shock Resistance	147 m/s², 11 ms 5 shocks on each of three mutually perpendicular axes		
Noise Immunity	Fast transient/burst test, Power terminals: ±2 kV, Communication line: ±1 kV (IEC/EN61131-2)		
Electrostatic Discharge	Contact ±6 kV, air ±8 kV (IEC/EN61131-2)		
Corrosion Immunity	Free from corrosive gases		
Mounting	Panel mounting (Panel Thickness: 2.0 to 5.0 mm)		
Degree of Protection (*1)	IP66F/IP67F (IEC 60529) (front part when mounted) UL Type 4X		
Dimensions	314.0W × 240.0H × 54.1D mm		
Weight (approx.)	2.1 kg		

 Do not use the HG4G-V in an environment subject to strong ultraviolet rays, otherwise the LCD quality will deteriorate.

*1) See instructions on the back page for details.

Panel Cut-out

All dimensions in mm.

Panel Thickness: 1.6 to 5.0 mm

Note 1: Dimensions in blue show the mounting dimensions of the cable.

Note 2: Dimensions in the figure may vary depending on the type of cable connected.

Note 3: Install the HG2G-V into a panel cut-out by tightening the four mounting clips (supplied with the HG2G-V) to a torque of 0.2 to 0.3 N·m. Do not tighten with excessive force, otherwise the HG2G-V and screen may become distorted. Also waterproof characteristics may be lost.

Rated Power Voltage	24V DC		
Power Voltage Range	20.4 to 28.8V DC		
	18W maximum		
Power Consumption	8W maximum when not using USB2 or EXT		
	4W maximum when Backlight OFF		
Allowable Momentary Power Interruption	10 ms maximum		
Inrush Current	30A maximum		
Dielectric Strength	1,000V AC, 10 mA, 1 minute between power and FG terminals		
Operating Temperature	-20 to +60°C (no freezing)		
Operating Humidity	10 to 90% RH (no condensation)		
Storage Temperature	-20 to +70°C (no freezing)		
Storage Humidity	10 to 90% RH (no condensation)		
Pollution Degree	2		
Vibration Resistance	5 to 8.4 Hz amplitude 3.5 mm, 8.4 to 150 Hz, acceleration 9.8 m/s 2 10 cycles (100 minutes) on each of three mutually perpendicular axes		
Shock Resistance	147 m/s ² , 11 ms 5 shocks on each of three mutually perpendicular axes		
Noise Immunity	Fast transient/burst test, Power terminals: ±2 kV, Communication line: ±1 kV (IEC/EN61131-2)		
Electrostatic Discharge	Contact ±6 kV, air ±8 kV (IEC/EN61131-2)		
Corrosion Immunity	Free from corrosive gases		
Mounting	Panel mounting (Panel Thickness: 1.6 to 5.0 mm)		
Degree of Protection (*1)	IP66F/IP67F (IEC 60529) (front part when mounted) UL Type 4X		
Dimensions	167.2W × 134.7H × 54.4D mm		
Weight (approx.)	0.65 kg		

• Do not use the HG2G-V in an environment subject to strong ultraviolet rays, otherwise the

LCD quality will deteriorate.

*1) See instructions on the back page for details.

User's Manual	HG9Y-B1701	1	English	\checkmark	~	~	~	\checkmark	~	~	

*1) The protective sheet is UV resistant, however, resistance against direct sunlight in outdoor usage is not guaranteed. Used to protect the display screen.

*2) Use the expansion module clamp when using expansion modules.

Order the module clamp by referring to the width of the module shown in the dimensions of each module.

MICROSITIAL Expansion Modules (Cannot be used for expansion with HG2G-5T and HG1G)

Input Modules

Input	Part No.	Connector	Dimensions	Consumption Current (r	
input	Tart No.	oonneetoi	$(L \times W \times H mm)$	5V	24V
8 points/DC Input	FC6A-N08B1	Removable, 5.08mm pitch 11-pin, screw fastened type connector	90.0 × 23.6 × 73.0	30	0
16 points/DC Input	FC6A-N16B1	Removable, 3.81mm pitch 10-pin, screw fastened type connector	90.0 × 23.6 × 73.0	40	0
16 points/DC Input	FC6A-N16B3	20-pin MIL connector	90.0 × 17.6 × 73.0	40	0
32 points/DC Input	FC6A-N32B3		90.0 × 30.2 × 73.0	65	0
8 points/AC Input FC6A–N08A11		Removable, 5.08mm pitch 11-pin, screw fastened type connector	90.0 × 23.6 × 73.0	40	0

Output Modules

Output	Part No.	. Connector	Dimensions	Consumption Current (mA)		
output	Tartivo.	Connector	$(L \times W \times H mm)$	5V	24V	
8 points/Relay Output	FC6A-R081	Removable, 5.08mm pitch 11-pin, screw fastened type connector	90.0 × 23.6 × 73.0	35	50	
16 points/Relay Output	FC6A-R161	Removable, 3.81mm pitch 10-pin, screw fastened type connector	90.0 × 23.6 × 73.0	50	100	
8 points/Transistor Sink Output	FC6A-T08K1	Removable, 5.08mm pitch	90.0 × 23.6 × 73.0	25	15	
8 points/Transistor Source Output	FC6A-T08P1	11-pin, screw fastened type connector	90.0 × 23.6 × 73.0	25	15	
16 points/Transistor Sink Output	FC6A-T16K1	Removable, 3.81mm pitch 10-pin, screw fastened type connector	90.0 × 23.6 × 73.0	30	25	
16 points/Transistor Sink Output	FC6A-T16K3	20-pin MIL connector	90.0 × 17.6 × 73.0	30	25	
16 points/Transistor Source Output	FC6A-T16P1	Removable, 3.81mm pitch 10-pin, screw fastened type connector	90.0 × 23.6 × 73.0	30	25	
16 points/Transistor Source Output	FC6A-T16P3		90.0 × 17.6 × 73.0	30	25	
32 points/Transistor Sink Output	FC6A-T32K3	20-pin MIL connector	90.0 × 30.2 × 73.0	45	50	
32 points/Transistor Source Output	FC6A-T32P3		90.0 × 30.2 × 73.0	45	50	

Digital Combination I/O Modules

Input	Output	I/O Points	Part No. Connector		Dimensions $(L \times W \times H mm)$	Consumption 5V	Current (mA) 24V
24V DC	240V AC, 2A	4 points/DC Input 4 points/Relay Output	FC6A-M08BR1 Removable, 5.08mm pitch, 11-pin, screw fastened type connector 90.0 × 23.6 × 73.0		30	25	
(Sink/Source)	30V DC, 2A	16 points/DC Input 8 points/Relay Output	FC6A-M24BR1	Removable, 3.81mm pitch 11-pin, screw fastened type connector 17-pin, screw fastened type connector	90.0 × 39.2 × 73.0	55	50

Analog I/O Modules

Name	Part No.	I/O Points	Input	Output	Terminal	Dimensions (L × W × H mm)	Curren	mption It (mA)
						, ,	5	24
	FC6A–J2C1	2 inputs		_	Removable, 5.08mm pitch 11-pin, screw fastened type connector		40	0
	FC6A–J4A1	4 inputs	Voltage (0 to 10V, -10 to +10V) Current (0 to 20mA, 4 to 20mA)	_			45	0
Module	FC6A–J8A1	8 inputs		_			40	0
Analog Input Module	FC6A-J4CN1	4 inputs	Voltage (0 to 10V, -10 to +10V) Current (0 to 20mA, 4 to 20mA) Thermocouple (K, J, R, S, B, E, T, N, C) Resistance Thermometer (Ni100, Ni1000, Pt100, Pt1000)	_	Removable, 3.81mm pitch 10-pin, screw fastened type connector		50	0
	FC6A-J4CH1Y	Isolated between channels 4 inputs	Thermocouple (K, J, R, S, B, E, T, N, C)	_		-	50	0
	FC6A-J8CU1	8 inputs	Thermocouple (K, J, R, S, B, E, T, N, C) NTC/PTC Thermistor	_			45	0
Analog Output Module	FC6A-K2A1	2 outputs	_	Voltage (0 to 10V, -10 to +10V)	Removable, 5.08mm pitch		40	0
Analog Out	FC6A-K4A1	4 outputs	_	Current (0 to 20mA, 4 to 20mA)	11-pin, screw fastened type connector		50	0
Module	FC6A-L06A1	4 inputs/ 2 outputs	Voltage (0 to 10V, -10 to +10V) Current (0 to 20mA, 4 to 20mA)	Voltage	Removable, 3.81mm pitch 10-pin, screw fastened type connector		55	0
Analog I/O Module	FC6A-L03CN1	2 inputs/ 1 output	Voltage (0 to 10V, -10 to +10V) Current (0 to 20mA, 4 to 20mA) Thermocouple (K, J, R, S, B, E, T, N, C) Resistance Thermometer (Ni100, Ni1,000, Pt100, Pt1000)	(0 to 10V, -10 to +10V) Current (0 to 20mA, 4 to 20mA)	Removable, 5.08mm pitch 11-pin, screw fastened type connector		55	0

• IDEC PLC MicroSmart expansion I/O modules can be used. When connecting expansion modules to the HG5G-V, HG4G/3G-V, and HG2G-V, note the limits shown below:

Part No.	No. of Connectable Expansion Modules	Total width of expandable modules when more than two are used	Current flow rate at 5V	Current flow rate at 24V
HG5G-V	4 max.	93.0 mm max.	130 mA max.	50 mA max.
HG4G/3G-V	4 max.	93.0 mm max.	130 mA max.	150 mA max.
HG2G-V	2 max.	70.0 mm max.	130 mA max.	150 mA max.

• Use the expansion module clamp when using expansion modules.

Order the module clamp by referring to the width of the module shown in the dimensions of each module.

• See catalog or instruction manual (http://www.idec.com/language/) for details on MicroSmart expansion modules.

Compatible PLCs

Note: HG2G-5T and HG1G cannot communicate using Ethernet/IP (Logix Native Tag)

• The compatible PLC information is for reference only (except for IDEC PLCs), and IDEC does not guarantee the operation of any other manufacturers' PLC. When using other manufacturers' PLCs, read their specifications and instruction manual carefully. The PLC must be operated correctly under the user's responsibility.

The company names and product names are registered trademarks or brand names.

*1) HG series can be connected as a master to the slave/server device. *2) HG series is connected as a slave to the master/client device.

An updated listing of compatible PLCs can be found at the following website. http://www.idec.com/oi/drivers

Operating Instructions

Be sure to read this manual carefully before performing installation, wiring, or maintenance work.

- This product has been manufactured under strict quality control. However, if you intend to use this product in applications where failure of this equipment may result in damage to property or injury, ensure that it used in conjunction with appropriate fail-safe backup equipment.
- When using the HG series in applications which require high reliability and safety, such as nuclear equipment, railways, aircraft, medical equipment, and vehicles, add a failsafe or backup functionality and verify an adequate level of safety using the product specifications.
- Turn off the power to the HG series before installation, removal. wiring, maintenance, and inspection of the HG series. Failure to turn power off may cause electrical shock or fire hazard.
- · Emergency and interlocking circuits must be configured outside of the HG series.
- Do not use touch switches and the function keys for an emergency circuit or an interlocking circuit. If the HG series fails, external equipment connected to the HG series will no longer be protected, and serious injury to operators and equipment damage may be caused.
- Although the screen will not be visible if the backlight of the HG series burns out, the touch panel will remain functional. Incorrect touch panel operation will occur when operating the touch panel when the backlight appears to be turned off but is actually burnt out. Because such erroneous operation could result in damage, the touch panel should not be used after the backlight has burned out.
- When more than one button is pressed at the same time, due to the detection characteristics of an analog type touch panel, only the gravity center of the pressed area is sensed and the unit assumes that only one button is pressed. Therfore, do not operate the HG series by pressing more than one button simultaneously.
- Use the product within the environmental limits given in the catalog and manual. Use of the product in high-temperature or high-humidity environments, or in locations where it is exposed to condensation, corrosive gas or large shock loads, can create the risk of electrical shock or fire.
- The HG series is designed for use in pollution degree 2. Use the HG series in environments of pollution degree 2. (based on the IEC60664-1 rating)

- Install the HG series according to the instructions in the User's Manual. Improper installation will result in falling, failure, electrical shock, fire hazard, or malfunction of the HG series.
- Use a power supply of the rated value. Using a incorrect power supply may cause fire.
- The HG series uses "PS2 of EN61131" as DC power supply. (based on the IEC / EN61131 rating)
- When exporting the HG series to Europe, use an EN60127 (IEC60127) approved fuse on the power line outside the HG series.
- . When exporting the HG series to Europe, use an EU-approved circuit protector.
- . The touch panel of the HG series is made of glass, and will break if exposed to excessive shock. Be careful when handling the HG series.
- Do not press or scratch the touch panel and protection sheet with a hard object such as a tool.
- Do not install the HG series in areas subject to strong ultraviolet rays, as ultraviolet rays may impair the quality of the LCD.
- Note that small black and bright dots may show up on LCD Screen: this is not a failure or malfunction.
- The backlight life is not guaranteed and refers to the time until the brightness reduces by half after use at 25°C. The actual life depends on operating environments and conditions.
- Protection degree refers to the front of the surface after mounting. Although the protection structure satisfies various testing conditions, operation is not guaranteed under certain environments. IP66F/IP67F oilproof structure satisfies oilproof test conditions. Conditions are listed in the appendix of Japanese Industrial Standard JIS C 0920. Operation is not guaranteed when using oil for a long period of time or oil that does not satisfy standards. Please test/check before use.
- Do not attempt to disassemble, repair or modify the HG series. This can create the risk of fire or elecrical shock.
- When using HG2G-5T and HG1G, to satisfy specifcations for unnecessary radiation, attach a ferrite core to the power and communication cable connected to the main unit.
